For an alterative and tonic it has never been equalled." d

## LOCAL MATTERS.

Mr. Lindley H. Folsom, of Greenville, was in the city yesterday on a short business trip.

Mr. George W. Fox has commenced work on the cellar of his new residence which he is to build on Montgomery street.

The schooner Nathan Easterbrook, which has been loading from the Dirigo Ice Company's houses, has finished loading and will sail at once for Philadelphia.

For twelve years milk from Bruce Farm has been delivered in our city. The route has been sold to Warren Mickerson, who will take possession May first. The cows, however, are to be sold at the place.

Bacon, Robinson & Co. had a crew at work paving the driveway from their scales to the street at their Front street coal office. It has always been a very muddy place for teams and pedestrians to cross and the paving will be a great improvement and one that will be appreciated.

The business of the Bangor creamery is very rushing for this season of the year, 400 lbs. of butter being the daily output. In addition to the numerous dams on the road in this vicinity they receive cream from Sebec, over the Bangor & Piscataquis, every day and will soon begin to get it from Bradford and Lagrange the same way.

Andrew J. Blakely, a mechanic at work for the Maine Central Railroad Company at the engine house in this city, met with an accident which might have been a serious one, but fortunately he escaped severe injuries. He was at work about one of the engines, yesterday forenoon, and while turning on the blow-off cock to allow the steam and hot water to escape, it came out in an unexpected place, the scalding stream of hot water and steam striking him full in the face, scalding him quite severely, it was thought. Blakely left his work and had his face attended to by a physician, who found that he had fortunately escaped with slight burns and will be able to return to his work to-day.

The alarm of fire at five minutes before twelve, yesterday forenoon, was caused by a fire in a house in St. Michael's court, owned by Mr. Henry Noyes and occupied by three families, a tenement occupied by two old men being the place where the fire caught and which was looked at the time. The fire was discovered breaking through the roof which caught from a defective chimney, and one end was soon in a blaze, but was not permitted to get far before the firemen turned on the water and drowned it out, only thirty minutes after the alarm was first sounded before the hose company had finished and were on the way home. It was necessary to break down the entrance door, the stairway door and a lamp door in the attic and which was nailed down, before it could be seen from the inside where the fire was. The firemen, however, by their very prompt action, prevented the flames from spreading to other buildings or even to the front of the same roof. The damage was not very heavy, mostly to the roof.

**He Saw Them Go By.** Amusing incidents happen sometimes at the wharves and depots when individuals are "only a minute" behind, but that minute might as well be an hour, for all the benefit they get from it. Yesterday as the Lewiston was just leaving the wharf to swing around before casting off finally, an excited colored gentleman who had evidently stopped somewhere by his appearance, came rushing down the wharf toward the boat and without waiting to see if he could get aboard, tossed his "grip" to one of the sailors and then hurried along the wharf to jump aboard at the nearest point. By this time the boat had drawn away somewhat but he would have jumped even then but, not a boat official told him not to! Determined not to get left he engaged a boat and boatman at the schooner below and started out to intercept the steamer when she should come about, but the boatman, after getting out in the river refused to go any nearer the boat for fear that he would get under the wheels, and while the passenger argued and the boatman wavered, the Lewiston sailed grandly past and the "grip" and the "colored gentleman" had parted company for the present at least. He was very cross about it, but that didn't put him aboard the boat.

### Obituary.

Died in Old Town, April 12th, of heart disease, Mrs. Sarah E. Wadlin, wife of Israel Wadlin, at the age of sixty-five years. The subject of this notice had been twice married, her former husband being Mr. Henry S. Hamlin with whom she resided many years in the town of Milo, and until his decease in 1875. Eight years ago she was married to Mr. Wadlin and went to reside at Old Town, living there until called to lay down her life's work and enter the rest beyond. The deceased was a remarkably good woman and bore life's burden heroically and without murmuring. Her first husband, Mr. Hamlin, was a sufferer for eighteen years from the effects of that dread disease, consumption, yet, caring all that weary "waiting and watching" she ministered to his needs tenderly, patiently and pleasantly, and when at last the pale messenger came and gave to the weary one rest, it was truthfully said, she did her duty nobly. It will be remembered by many that about one year ago, Mr. Wadlin, above named, was stricken with partial paralysis while returning to his home from Greenville, since which time he has been an invalid, and the loss of her, who, during this time, has been so kindly attentive to his needs and comfort, is a crushing blow.

The deceased leaves two sons, Orrin and F. W. Hamlin, residents of Milo, who feel most keenly the loss of a dear and loving mother, the memory of whom they will ever cherish as a priceless jewel. Not only will her immediate relatives miss the departed, but to all who knew her intimately, and to whom in times of distress and sorrow she was ever ready to give aid and comfort, will her absence be felt keenly. A faithful and loving wife and mother and

### Kingman Letter.

[Reg. Correspondence Whig and Courier.]

A house and barn occupied by Mr. Herbert Lyons and owned by Mr. H. H. Smith were entirely consumed by fire last Sunday. It originated from a defective flue which caused the flames to start in the roof in the absence of the inmates. Mr. Lyons lost nearly all his household goods and had no insurance. The loss of the buildings is very small.

A son of Mr. Eugene Robinson was quite severely injured in the face by the kick of a horse, last Monday. The little fellow's wounds were sewed up and he is doing as well as can be expected.

There was a Sunday entertainment in Dale Hall on the 20th that was quite successful.

The river here is clear of ice and the logs are running. We are informed that there is considerable snow in the up river towns yet, in spots, in some places and far from here there is as fine good sleighing.

Mr. Joseph Dearing of Lincoln, was in town last Monday.

Mr. Jas. Ambrose of Sherman, was in town on business last Friday.

Mr. F. W. Rhodes has gone to Augusta to visit his father and attend the session of the Grand Lodge of I. O. G. T., in that city.

Mr. John M. Garrison now employs two men to assist him in his shop and is doing a large business.

Mr. and Mrs. Charles Shaw of Boston, were visiting friends in town a few days last week.

Mr. A. Leavitt is having some decided improvements made in his house.

We hear Messrs. L. B. Clark & Co. intend putting in a mill for grinding corn, enabling them to ship it directly from the West. Such a move looks very favorable for success.

### Pittsfield News.

[Regular Correspondence of Whig and Courier.]

Mr. E. M. Shaw is going to build an addition on his harness shop this spring. His increasing business demands more room and the addition is to be 20x40 feet in size.

An entertainment called the "Twins Family" was given in the Institute Chapel last Friday evening by the Ladies' Working Band. It was in every way a success and a good sum was realized as the proceeds.

The Reliable complimentary to the Class of '90 will be given at the Institute Chapel next Friday evening by the class of '91. The invitations are already out and are very nicely gotten up.

Robert Dobson & Co., are having placed in position a fine new iron bridge across the Sebasticook from their mill to "Little Scotland," so called. The bridge is of 70 ft span.

A new street is to be opened by W. T. Hunnewell, this spring, which will make several fine house lots become accessible. The street is to start from Main street, at a point between the Lenox House and S. Thompson's store, and extend entirely across the Sebasticook river by means of an iron bridge. The contract for making the street has been given to Joseph Fisher.

### Levant Items.

[Regular Correspondence Whig and Courier.]

Mr. D. B. McLaughlin lost a valuable cow one day last week.

Mr. V. Willard is moving to Bangor, this week, where he is going to work at his trade as carpenter.

Mr. J. Rogers is canvassing the town for the purpose of getting the farmers to plant sweet corn for the canning factory at Corinna. The farmers are signing for from one to four acres.

As Mr. G. W. Corson was sawing wood at Glenburn with his circular saw one day last week, he met with a painful accident. He was just finishing up a job when a stick struck the saw and bouncing back struck Mr. Corson in the face knocking him down. He is doing well as can be expected, but it will be some time before he gets out again.

Farm hands are quite scarce here and the farmers are offering good wages.

SCROFULA

Is that impurity of the blood which produces unsightly lumps or swellings in the neck, which causes running sores on the arms, legs, or feet, which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness, which is the origin of pimples, cancerous growths, or "humors," which, fastening upon the lungs, causes consumption, and death. It is the most ancient of all diseases, and very few persons are entirely free from it.

How Can It Be Cured?

By taking Hood's Sarsaparilla, which by the remarkable cures it has accomplished, has proven itself to be a potent and peculiar medicine for this disease. If you suffer from scrofula, try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with pimples, my little boy, three years old, being a terrible sufferer. Last spring he was one mass of sores from head to foot. We all took Hood's Sarsaparilla, and all have been cured of the scrofula. My little boy is entirely free from sores and his form of my children look bright and healthy." W. B. ## Levees Giving Way and the Crevasses Widening.

### Further Reports of the Floods Along the Mississippi.

NEW ORLEANS, La., April 23. The Baton Rouge special says: Another break occurred last night in the Pointe Coupee levee. The indications are that the entire Pointe Coupee front will be submerged. The water is now pouring through the crevasses at Margarette and in that vicinity and will overflow the greater portion of the country between the Atchafalaya and Mississippi rivers, extending from the old river above to Bayou La Fourche below, and embracing about seven hundred square miles of territory. No news is yet received from the interior. At Point Coupee parish relief boats are taking care of all those who reached the levee. As the official condition of the levee has been known for some weeks the hope is entertained that no loss of life will result from the breaks along the front.

Levee Broken—Fifteen Plantations Overflowed.

NEW ORLEANS, April 23. The Times-Democrat's Baton Rouge special says: Last night the levee at Lobdell's Landing, six miles above here, gave way and the break is now 300 feet wide and 10 feet deep. Going on to Baton Rouge last night the road at Manchac pass broke and is 100 feet wide and is believed to be impassable. The water falls this morning and another great flood plantation, the finest of each, this morning the river is 18 feet above the levee.

Another Crevasse.

The Times-Democrat's Bayou Sara, La., special says: Seven crevasses and reported this morning between this place and Williamson's, the latter about one mile from the river. The Gladia White, crevasse at 8 o'clock this morning, brought in a boat load of people and stock from the interior of this parish. The water continued last night and poured down in torrents, causing a panic in the bayou and in fact all the lower bottom. The effect of the crevasse created a darkness from 10 day until twelve which affected great panic. The bank in Alexandria, Cheval and Mansfield only the months and we also will not send collections. Two barges are aground on Old River.

## Several Bills Passed in the Senate.

### Legislative Appropriation Bill in the House.

### Democratic Brutality in the South.

Senate.

WASHINGTON, April 23. Mr. Chandler offered a resolution, providing for the adoption of a standing rule of the Senate which will allow of a morning hour, the time at which depends on any bill or Nicaragua under consideration shall cease; also that whenever a quorum of Senators shall not vote upon the roll call the presiding officer may cause to be stated upon the journal the names of all absent Senators and no voting and such Senators shall constitute part of a quorum to do business.

The purpose of the foregoing rule is to expedite the taking of votes in the Senate and to facilitate public business.

The resolution was referred to the Committee on Rules.

Mr. Pendleton addressed the Senate in support of his bill to repeal all laws for the retirement of officers of the army, navy, marine corps and judiciary from active service on pay.

Mr. Platt presented the conference report on the Senate bill to provide a temporary government for the Territory of Dakota.

Mr. Voorhees spoke of the conference bill as the most heterogeneous, heterogeneous and contradictory piece of legislation he had ever seen. At present, as it came from the conferees, it was a congregation not of lions but of lambs. In his judgment it was an outrage on legislation.

Mr. Edmunds, of Vermont, one of the conferees, replied briefly to Mr. Voorhees' criticisms and defended the action of the conference committee.

Mr. Butler moved to recommit the report.

Presiding officer Ingalls stated the motion was out of order, as the conference committee had discharged so soon as the report was made.

The report was agreed to.

The bill now goes to the President for his signature.

The following bills were taken from the calendar and passed: The House joint resolution as to the appropriation of $10,000 for the office of Special Assistant Postmaster General; the Senate bill to establish Northport, in the District of Belfast, Me., as a port of delivery.

The House bill appropriating $50,000 for the erection of a statue of Gen. John Stark, at Manchester, N. H., was opposed by Mr. Cockrell, who said it was not particularly of the heroes of the memoir.

Mr. Hawley expressed the unexpressed of the Government contractors in the Department of Justice any effort to obtain in Washington. If the present Government is to erect statues elsewhere it would have to erect statues to all the Revolutionary heroes in all the States.

The discussion was continued by Messrs. Spencer, Hoar and Chandler in support of the bill and Mr. Moody against it.

Mr. Davis took exception to some claims made in the eulogy of the military services of Gen. Stark. He said as a soldier of history, Gen. Stark would have failed at Bennington if he had not been for the "Fighting Parson" of his (Mr. Davis) State from who, on the approaching Gen. Stark at Bennington, displayed the courage, zeal and experience which he most lent to operations on the village ground; who had fought at Bunker Hill, and to the critical moment supplied the powder which turned the battle.

A vote was taken on the passage of the bill. It resulted—yeas, 30; nays, 7.

The bill went over without action.

On motion of Mr. Cullom the House joint resolution for the appointment of Charles Devens of Massachusetts, regent of the Smithsonian Institute, in place of Noah Porter of Connecticut, resigned, and the joint resolution of Charles C. Bonney of Illinois, regent of the Smithsonian Institute of Washington City, whose term has expired, was passed.

On motion of Mr. Plumb, the land forfeiture bill was taken up, and became the unfinished business.

The Senate at 6, adjourned.

House.

The House went into Committee of the Whole, on the legislative appropriation bill, the pending question being on the motion of Mr. Dunnell, of Minnesota, to strike out the clause providing for clerks for Senators.

The motion to strike outwas lost—83 to 87.

Mr. Kelley, of Mississippi, in reply to a remark said he was informed at the Post-office Department that, in some places it was impossible for a Republican postmaster to secure a location in towns and he was obliged to go to the country. W. A. Finley was appointed postmaster at Asheville, N. C., and shortly after his appointment he was set upon by a mob, led by Wirt Cobham, son of Congressman Cobham, and beaten with harsher were and threatened to leave town.

Mr. Bolon, of Tennessee—Did you write the letter for him?

Mr. Kelley—I wrote the letter at his request. (Laughter.)

Mr. Henderson, of Iowa—I rise to propose an amendment to the Democratic side.)

Mr. Rowell, of Illinois—It is a crime on the other side of the House to hear of counts of murder and whipping with barbed wire.

Mr. Kelley—The gentleman signed the letter in my presence.

Mr. McMillan—Why did he not write the letter?

Mr. Kelley—On account of the outrage, his arm is paralyzed. (Derisive Laughter.)

Mr. Hostelle—I insist that a member on this floor shall not be treated as postmasters and mail agents in the South.

Mr. Kelley said Mr. Finley had already to the Secretary of the Interior which was published in the Philadelphia Press.

Mr. Blount, of Georgia, inquired whether the gentleman was sure that Mr. Finley was paralyzed.

Mr. Kelley replied that Mr. Finley had every appearance of being paralyzed. Mr. Kelley read from letters of Southern postmasters to First Assistant Postmaster General Clarkson, complaining of outrages.

In the discussion which ensued there was a great deal of confusion and fun. Mr. Kelley being bombarded with questions, boisterous and otherwise, and replying to them in kind. Neither the questions nor answers had the slightest relevance to the appropriation bill.

Mr. Turner, of Missouri, inquired whether in the speech made by Mr. Kelly in a public hall in Washington he had said the expression "white girl was just as good as a colored girl."

Mr. Kelly replied that he did not remember, but he would say he would as a white girl is just as good as a colored girl. He defied the gentleman from Missouri to deny it. (Laughter.)

The discussion took a political turn and the subject of southern outrages was gone over at some length. Pending further discussion the committee rose and the House at 5.55 adjourned.
